  Photography - 2019

• SUMMARY

Hello! I'm Jacob Miller. I'm the founder of 1x1 Corp, web and app developer, and RIT drop out. I'm self taught and learn much faster independently.. Because I started the self teaching process building apps in 2020, I found myself so far ahead that there was little benefit to the mandatory classes, and because attendence was mandatory it was a significant blocker.

• EDUCATION

Rochester Institute of Technology

2024 - 2025

I left my software engineering program after 1 year to build my startup.

Lancaster High School (NY)

2020 - 2024

Honor Roll or High Honor Roll
Student of the Month- Math
(Pre-calculus)

Notable Classes
- PLTW- DDP
- PLTW- DE

- PLTW- AP CSP
- AP CSA
- Physics
- Pre Calculus
- For more classes, see transcript

• EXPERIENCE

Web Development and IT Consultant   2022 - Present

Self Employed

I started building websites for customers and their businesses. Customers also love my custom built CMS. This led to small businesses hiring me to purcahse their IT equipment, performing upgrades, and more.

- Coordinating with clients
- Design and prototypes
- Development and deployment

Photography   2017 - Present

Self Employed

People wanted to buy my photography, so I started selling online and at vendor events.

- Printing, Framing, and packing
- Event coordination and logistics
- Photoshop

Volunteering   2016 - Present

The Hope Project of WNY

Local non profit that helps those who cannot make ends meet.

- Ticket Sales (Basket Raffes, etc)
- Event Setup
- IT
